

GO MD HEALTHCARE PLAN + FORMULARY

Group Health + RX PLANS \$20/MO
GoMDUSA.COM

Simple, Comprehensive, Unlimited Everyday Care – For One Low Monthly Rate

GO MD is your all-in-one healthcare solution, offering **unlimited access to virtual doctors and prescription medications**, with no co-pays, no deductibles, and no confusing insurance barriers.

WHAT'S COVERED

Unlimited Medical Consultations

Virtual access to licensed physicians, mental health professionals, and care teams – with no appointment limits or extra costs.

Unlimited Prescription Medications

Full access to a comprehensive formulary of generic and brand-name medications – from routine antibiotics to advanced mental health and metabolic therapies.

Lab & Diagnostic Referrals

Lab tests and diagnostics can be ordered by your GO MD provider as part of your ongoing care.

PRESCRIPTION DRUG FORMULARY INCLUDES

Group Health + RX PLANS \$20/MO
GoMDUSA.COM

Primary Care Medications

Manage common everyday health needs: infections, asthma, allergies, blood pressure, and more.

Examples: Amoxicillin, Lisinopril, Atorvastatin, Albuterol

Chronic Disease Management

Support for long-term conditions such as diabetes and heart disease.

Examples: Metformin, Losartan, Spironolactone, Furosemide

Mental Health & Neurological Support

Access to essential psychiatric and neurological therapies.

Examples: Sertraline, Aripiprazole, Bupropion, Lamotrigine

Infectious Disease Treatment

Antibiotics, antivirals, and antifungals – tablets, creams, injections.

Examples: Azithromycin, Fluconazole, Valacyclovir, Vancomycin

Muscle Relaxants & Pain Management

Non-opioid solutions for acute and chronic pain.

Examples: Cyclobenzaprine, Methocarbamol, Tizanidine

Endocrine, Hormonal, and GI Support

Includes thyroid, hormonal, and gastrointestinal support therapies.

Examples: Levothyroxine, Linaclotide, Estradiol

Dermatology, Hair Loss and Specialty

Comprehensive dermatologic and specialty self-care treatments.

Examples: Clobetasol, Finasteride (Propecia), Minoxidil (Rogaine)

Erectile Dysfunction & Urology

Full coverage of ED therapies and urinary health medications.

Examples: Tadalafil (Cialis), Sildenafil (Viagra), Vardenafil (Levitra)

WEIGHT LOSS MANAGEMENT MEDICATIONS

Group Health + RX PLANS \$20/MO
GoMDUSA.COM

GO MD includes coverage for a powerful combination of clinically supported weight loss medications:

Metformin

- Originally developed for type 2 diabetes
- Improves insulin sensitivity and reduces hunger
- Supports weight loss through appetite regulation and metabolic balance

Bupropion (Wellbutrin/BuSparon)

- An antidepressant that also targets reward centers in the brain
- Reduces food cravings and emotional eating
- Often combined with other medications for synergistic effects

Topiramate (Topamax)

- Originally for seizures and migraines
- Decreases appetite and enhances satiety
- Known to support sustainable weight loss when used under medical supervision

Medication Combinations Offered by GO MD

- Basic Kit: Metformin + Bupropion
- Complete Kit: Metformin + Topiramate + Bupropion

These combinations are physician-guided and included in your plan at no additional cost — with unlimited monthly access to medications and consultations to support safe, progressive weight loss and lifestyle improvement.

Key Formulary Benefits

- No prior authorizations required
- No medication limits — refill as needed
- Generic-first approach, brand-name availability when needed
- Covered combinations for weight management
- Nationwide pharmacy network + mail delivery available

- Preventive screenings are not included
- Lab and diagnostics available via referral
- Emergency care, hospital stays, and surgeries are not covered
